Students—Enhancing your EMT Education

Orchard Education can assist you with a concise focus on your education and practice, to enhance what you have been taught on your EMT programme.

Despite having completed a professional programme, with qualified tutors and faculty, some EMT students may wish to enhance their learning by engaging with experienced pre-hospital practitioner/educators, with years of experience.

Sometimes all you need is the additional guidance to allow you to maximise your efforts when it comes to examinations.

Flexible solutions for your EMT Education

ORCHARD EDUCATION PROVIDES A TOTAL END TO END SOLUTION.

QUESTIONING, PRACTICING, GUIDING AND ENCOURAGING.

At Orchard, our function is to ensure the EMT student has the best possible opportunity to succeed in your examinations, and more importantly, your practice once you have qualified.

There are many different formats for you to enhance your learning experience, given from the perspective of EMS educators, examiners, and experienced practitioners which will augment your recent learning

FOR EMT STUDENTS (NOT YET QUALIFIED)

- ONE-TO-ONE, ON-LINE/FACE-TO-FACE (SOCALLY DISTANCED)
- SMALL GROUP TUTORIALS 2 - 4 STUDENTS
- OPPORTUNITY TO SUBMIT AREAS FOR DISCUSSION , PRE-SESSION
- PRACTICE-REVIEW-PRACTICE

CUSTOM SOLUTIONS

COMPETENT IN ASSISTING OTHERS

STUDENT EMT SKILLS ASSESSMENTS
AND FEEDBACK

REGISTERED EMTS SKILLS ASSESSMENT
AND FEEDBACK

QUALIFIED EMERGENCY MEDICAL TECHNICIANS — CHALLENGE

Registered EMTs, may wish to practice
their skills in a realistic but simulated
environment to support best-practice
patient assessment and management
skills

SKILLS — SIMULATION, PRACTICE AND CRITIQUE

Maximising your potential for the benefit of others

EMT—STUDENTS

Orchard's experienced practitioner educators can test your ability to practice
against an international standard to ensure you are ready for upcoming examina-
tions. Our experienced team can push you to the limits through real-life scenarios
and honest critical review and feedback.

Registered EMTs— challenge

If you are ready for a true test of your competence, try our EMT challenge. This is a
structured pre-determined simulated scenario which will test you against interna-
tional standards to benchmark your competence.

It is easy to allow your assessment and patient management skills to slip, without
constant practice , revision and feedback.

Orchard will challenge you but in a professional and structured manner. We will
enhance your practice and cause you to review and reflect on how to improve your
practice.

Following successful completion of scenarios, you will be issued a certificate of com-
petence

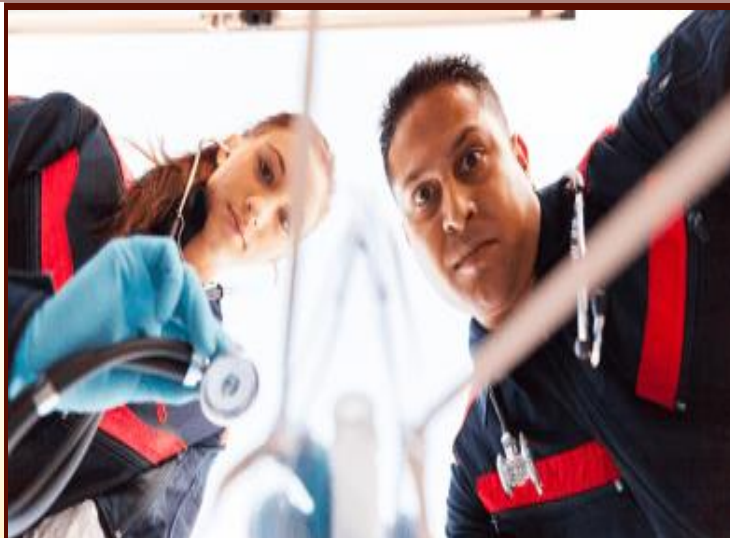

All you need to do is apply and be able to accept 'Critique' not 'Criticism'

Bringing your knowledge to a new level

Bringing the best out in you to enhance and augment your education and learning

If you wish to discuss your options for a personal tutorial or for small group tutorials please contact us at the email address below.

Tutorials are available on-line or in restricted learning environments. These tutorials can be arranged regionally. One –to—one tutorials are recorded as a security measure and require your consent . Recordings are deleted in accordance with our GDPR policy and are not shared with students.
